DBA and DBD SQL

ABOUT ME

I am a passionate student of my career, deeply interested in technology and its development. I feel confident working in or leading teams, as I focus on control and strive for perfection in everything I do.

EXPERIENCE

2024 Students and Teachers Portal Login
Program done in PHP and we used SQL for the data base.

2023 Teachers Portal Login
Program done in Java (front and back end) and we used SQL in DB administration.

2022 Game developed "sapelon"
We used java for programming the whole game in front and back end.

2020 - Creator content in Twitch, Youtube and Tiktok (channel: Torvics)
Present I developed skills in editing, creativity, communication, and social media.

EDUCATION

Present | 2022 Information Systems Engineering
Universidad de Sonora
